**AMENDMENT 002****2005 STATE ENERGY PROGRAM SPECIAL PROJECTS**

The U.S. Department of Energy's (DOE) National Energy Technology Laboratory (NETL) have issued **Amendment 002** to the Master Funding Opportunity announcement (DE-PS26-05NT42396) for the **2005 State Energy Program (SEP) Special Projects**.

Amendment 002 revises Section IV - Application and Submission Information, Item D. Content and Form of Application, Attachment 4 – Special Conference/Workshop Project Information Form. Specifically, Amendment 002 deletes the instructions for Attachment 4 and replaces it with the following:

"If an applicant proposes conferences/workshops, i.e. meetings, seminars, retreats, symposiums, or similar events (i.e., training events), a Special Projects Conference/Workshop Project Information Form must be included for each conference/workshop proposed. In the event an applicant proposes the same conference/workshop to be held at multiple locations and/or dates, an applicant must only complete one Special Projects Conference/Workshop Project Information Form, asterisking the proposed dates and/or locations on the form, and listing all proposed dates and/or locations in an asterisked footnote below the form. The Special Projects Conference/Workshop Project Information Form is found as Appendix E to this announcement."

Please see the full text of Amendment 002 for details. Amendment 002 is available on the DOE's Industry Interactive Procurement System (IIPS) web site at <http://e-center.doe.gov>. For your convenience, a copy Amendment 002 is available in Adobe PDF format and can be downloaded from the Commission's web site at <http://www.energy.ca.gov/contracts>.
